

WULFTEC® Heavy duty 2,500 lbs Capacity conveyors

Wulftec has built a solid reputation on being experts in the conveyor industry with multiple conveyor solutions for all industries. Having a Wulftec® conveyor on the production line is a powerful statement. It's an investment in strong values because Wulftec is dedicated to manufacturing only the best. It's an investment in all steel construction, for increased stability and strength. It's an investment in success, because Wulftec® equipment is designed and built to last load after load, year after year.

STATE-OF-THE ART CONSTRUCTION

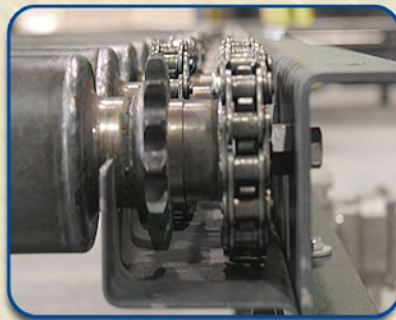

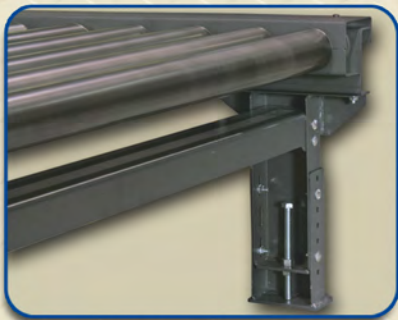

- 11 gauge thick formed steel channel
- All rollers driven roller to roller with #40 chain
- Maintenance free sealed bearings
- Adjustable leg assemblies +/- 1"
- Interchangeable feet to allow pass height changes
- Fully enclosed, top and bottom chain guard and drive system guard
- One side driven, for easy loading and unloading
- 2,500 lbs capacity
- Best warranty in the industry (3 years)

CHAIN GUARDING

- Top and bottom chain guard
- Totally enclosed drive system
- No chain pinch points

VERSATILITY

- 24VDC components
- Non-proprietary parts throughout
- Variety of lengths, widths and heights available
- Many available options (refer to back page)

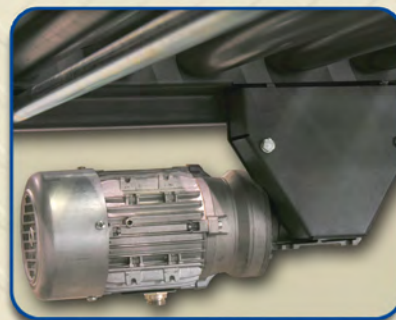

ROBUST ROLLER FEATURES

- 1/8" wall tubing
- 2 1/2" dia. rollers on 3 3/4" centers
- One piece stub shafts machined from solid steel bar
- Hardened sprocket teeth
- Full weld around circumference of tube
- Tubing machined at both ends to ensure concentricity

ADJUSTABLE DRIVE SYSTEM

- Adjustable without guard removal
- Drive unit mounted below conveyor guard for more protection
- Easy access to the drive unit from top, side or bottom
- Maintenance free gearbox with synthetic lubricant
- All quick disconnect wiring for easy installation & maintenance
- 1/2 HP - 230 / 460VAC TEFC motor
- 30 FPM, up to 60 FPM available

WE FEAR NO PACKAGING CHALLENGE
