WE FEAR NO PACKAGING CHALLENGE
Get SMART in 4 Easy Steps

Step 1: Choose your turntable

High Profile
- Octagonal base (SMH-150) 58” diameter, 4,000 lbs capacity
- Max load size 58” x 58” (119½”L x 66”W)
- Base size 109½”L x 51”W

Low Profile
- Octagonal base (SMH-150) 58” diameter, 4,000 lbs capacity
- Max load size 50”L x 50”W
- Max load size 58”L x 58”W
- Base size 109½”L x 51”W

Step 2: Choose your wrap height

Wrap height: SMH-80, 92, 104, 116, 128
- SMH-80, 92, 104
- SMH-116, 128

Features:
- Heavy-duty tower with enclosed dual #50 carriage lifting chains and motor for greater safety and protection
- Quick disconnect for easy installation and maintenance

Step 3: Choose your carriage

Choice of 2 models
- 20” or 30” NO-THREAD® powered pre-stretch carriage (50-100% pre-stretch ratio)
- 20” or 30” no pre-stretch carriage (ideal for netting or pre-stretched film)

Features:
- Carriage located on the side of the tower for optimal film delivery
- Pre-stretch rollers’ blue compound are covered by a lifetime warranty

Step 4: Choose your control panel

Basic (B)
- Allen Bradley PLC
- Basic wrapping functions

Features:
- No pre-stretch carriage

Standard Plus (SP)
- Allen Bradley PLC with PanelView 800 touch screen
- 3 pre-set wrap patterns
- Allows for some options and minor program changes

Deluxe (D)
- Allen Bradley PLC with PanelView 800 7” touch screen
- Highly flexible wrapping patterns
- Allows for a full range of options and program changes

Features
1. Allen Bradley variable frequency drives
   Wulftec was the first in North America to put AC variable frequency drives as standard equipment on all machines.
   Why? AC variable frequency drives and motors are safer, offer a more reliable performance and require minimal maintenance. Wulftec stretch wrappers will save you time and money.

2. 20” NO-THREAD® pre-stretch carriage
   20” NO-THREAD® powered pre-stretch carriage for quick, easy, ergonomic and safe film loading. Our pre-stretch ratio goes from 50% to 100% for optimum film use and reduced costs. With our revolutionary spring loaded carriage gate, our carriages are “maintenance free”.

3. 25” ring gear (SMH-HVY)
   Wulftec uses 25” ring gear bearing with pinion GEAR drive for unbeatable strength and durability. It’s one of the main reasons we sell more heavy-duty turntable units than all other manufacturers combined.

   The ring gear bearing is warranted for a period of 10 years.

4. Dual chain carriage lift system
   Enclosed dual chain carriage lifts for increased safety. The dual chain system improves machine security and ensures stable lifting thus eliminating vibrations.

5. Quick disconnects throughout
   Electrical and pneumatic components are quick-disconnect type for ease of installation and maintenance

6. Heavy-duty structural steel construction
   Wulftec stretch wrappers benefit from an all-steel structural design for superior strength. That’s why our stretch wrappers are well-known for their exceptional strength, durability and reliability — no matter how harsh your environment may be.

The structure is warranted for a period of 10 years.

Why Choose Wulftec?
Superior safety features are engineered into every Wulftec machine. Wulftec’s exceptional performance characteristics ensure reliability even in the harshest working conditions. It’s important to get the best value for your investment. Why save a few bucks on a stretch wrapper if it can’t handle the workload? A stretch wrapper that constantly breaks down can’t guarantee a secure wrap and it certainly won’t help you ship products on time.

Benefits of a Turntable
When it comes to strength and flawless performance, no other manufacturer can compare to Wulftec. That’s because only Wulftec stretch wrappers benefit from an all-steel structural design for superior strength. That’s why our stretch wrappers are well-known for their exceptional strength, durability and reliability — no matter how harsh your environment may be.

The Wulftec Advantage
- Allen Bradley PLC for more flexibility
- AC variable frequency drives and motors
- Heavy-duty steel construction
- Non-proprietary parts

Wulftec Warranty:
- 5-year unlimited warranty
- 10-year warranty on structural steel frame
- 10-year warranty on 25” ring gear bearing (SMH-HVY)
- LIFETIME warranty on pre-stretch rollers’ blue compound

Wulftec: We Fear No Packaging Challenge

Technical Specifications

### Reduced film waste by optimized resolution:
We use a higher resolution positioning system to deliver the film in a more accurate quantity. This means an average film reduction of 4 feet of film per pallet when compared to other control systems! That's 10 miles\(^1\) of unstretched film per year!

### Reduced general waste by better product protection for handling and transport:
With very low wrap capability, the product is properly secured to the pallet, resulting in a pallet that is more stable for transport and therefore less damage!

### Reduced greenhouse effect gas emissions with the low profile turntable:
It is also possible to bring the pallet to the machine by manual or powered pallet jack.

### Reduced electricity consumption:
By using variable frequency drives on all its motors, Wulftec ensures that only the power required by the load is used, regardless of the HP of the motor. By this, we have standardized our motor sizes, allowing for less parts in inventory for us and our customers. This translates into greener operations at our end and at your end.

---

1. Based on a production rate of 10 pallets per hour, 2 shifts, where 50% of the production is in "peak-mode", 250% pre-stretch
- Approximate shipping weight is 2,200 lbs to 2,800 lbs
- All machine specifications are subject to change without prior notice
- All units wrap up to 55 loads per hour depending on the machine configuration and load size
