

How can we help you?

Are you stretch wrapping in the toughest environment?

We have the solution for you!

Wulftec offers a complete line of semi-automatic and automatic stretch wrapping systems made to measure and meet the specific needs of our customers. Whether or not you're in the market for new equipment, it's always a good time to plan for success.

Customized To Your Needs

Most food-related industries require high-pressure cleaning to remove any unwanted contaminants from their facilities. These industries will often use powerful and highly corrosive cleaning and disinfecting detergents during wash-downs.

Wulftec was asked to build a machine that would withstand those harsh environments for many years to come. We came up with this unique WCA-SMART™ - built entirely in stainless steel.

Wash-down Applications

To resist intense clean-ups, Wulftec equips this system with waterproof motors, quick-connectors throughout and a custom NEMA 4/12-rated stainless steel enclosure, protecting all electrical components from being damaged during wash-downs.

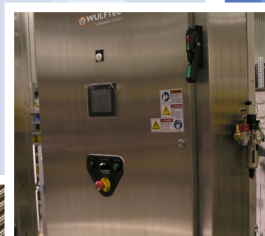

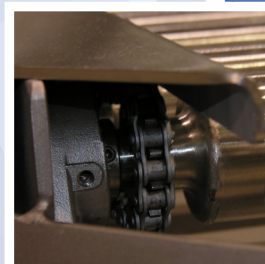

Tailor-made For These Industries:

- Meat
- Dairy Products
- Poultry
- and more...

Corrosion Resistant

In order to protect the machine from rust caused by exposure to highly corrosive cleaning products, we built this machine in stainless steel. Everything from the base and tower to the conveyor bearings and connection fasteners will remain rust-free. Here's a list of some of the special parts used on these machines:

- Washdown motors
- Stainless steel gearboxes
- Corrosion resistant chain
- Stainless steel sprockets
- Stainless Steel NEMA 4X control enclosure
- Flange mount disconnect
- Stainless steel structure including the tower, base, and turntable
- Stainless steel conveyor rollers and bearings
- Stainless steel NEMA 4X junction boxes
- Stainless steel fasteners throughout
- Stainless steel pneumatic cylinders

We have the solution for your industry

Our stretch wrappers are built to last in the harshest of environments

- Best warranties in the industry
- 10 year warranty on 25" ring gear bearings
- Lifetime warranty on pre-stretch rollers' blue compound
- Heavy duty structural steel construction (no plastic)

Stretch film is one of the most economical and reliable packaging materials

- Offers protection from water ingress, dirt and abrasion
- Ensures integrity of the load
- Highly flexible to wrap a multitude of shapes
- Available in different film gauges, characteristics, lengths and colors
- Exceptional puncture resistance
- Stretch film can be recycled

Productivity and cost effectiveness go a long way with a Wulftec stretch wrapping solution.

Speed up your production line and get to the market faster with a competitive edge wrapping solution.
