

DRIVEN BY YOUR NEEDS. POWERED BY OUR EXPERTISE.

AUTOMATION EDUCATION STAGE

Pack Expo 2025 • Booth #W-1044

FOOD SORTING & HANDLING

PROTEIN PROCESSING

PACKAGING AUTOMATION

MATERIAL HANDLING

# DURAVANT

## EDUCATION STAGE: Unpacking Innovation in Automation

MONDAY

09.29.25

10:00 am

Bagging Powders: Engineering solutions for complex material handling. Learn how bulk density, flowability and dust can affect your packaging line performance.

**NVENIA**  
A DURAVANT COMPANY

10:30 am

How AI is shaping the future of food quality sort automation: Unlocking new opportunities to ensure safety and quality while maximizing process yield.

**KEY**  
TECHNOLOGY  
A DURAVANT COMPANY

11:00 am

Innovating with recyclable materials: Learn about Mespac's 6R strategy and how operators can implement sustainable and eco-conscious solutions.

**mespack**  
A DURAVANT COMPANY

11:30 am

Beginning your packaging automation journey: From bag-in-box lines to XL bulk packaging, learn how to avoid common pitfalls so you can grow profitably.

**PATTYN**  
A DURAVANT COMPANY

12:00 pm

Identifying how the Wulftec advantage brings added-value and improved ROI to stretch wrapping operations.

**WULFTEC**  
A DURAVANT COMPANY

12:30 pm

From concept to quote, design smarter and faster: A live look at QC Conveyor's NEW next generation configurator tool.

**QC Conveyors**  
A DURAVANT COMPANY

1:00 pm

Unlocking efficiency with Mespac's integrated solutions approach: From primary packaging to end-of-line to palletizing.

**mespack**  
A DURAVANT COMPANY

1:30 pm

Improving consistency and yields in protein processing: precision cooking starts with precision portioning.

**marelec**  
A DURAVANT COMPANY

**MARLEN**  
A DURAVANT COMPANY

2:00 pm

Innovation driven by real-world challenges: Fueling new product development with customer partnerships.

**NVENIA**  
A DURAVANT COMPANY

2:30 pm

Quality separation solutions: Learn how meat-bone separators and ancillary equipment help meat and poultry processors improve quality, yield and efficiency.

**POSS**  
A DURAVANT COMPANY

3:00 pm

IIoT: How to improve the performance of your packaging equipment with digital solutions.

**DURAVANT**  
**ON SIGHT**<sup>™</sup>

3:30 pm

Identifying and selecting the best strapping technologies for standard and unique end-of-line load containment needs.

**WULFTEC**  
A DURAVANT COMPANY

4:00 pm

Beyond installation: Unlocking the full power of Lifecycle Services with smart, on-going support.

**PATTYN**  
A DURAVANT COMPANY

9:30 am		Enhancing slicing and dicing applications to maximize quality, yield, and performance consistency.	 A DURAVANT COMPANY	
10:00 am		Systems integration: The fundamentals of packaging line integration from upstream product handling to downstream palletizing.	 A DURAVANT COMPANY	
10:30 am		Sustainability in stretch wrapping: Reducing waste without compromising performance.	 A DURAVANT COMPANY	
11:00 am		Boosting machine performance with Mespac and Duravant Lifecycle Services.	 A DURAVANT COMPANY	
11:30 am		Advances in high-speed palletizing: The simple value in auto change-over.	 A DURAVANT COMPANY	
12:00 pm		Choosing the right bagger for your application: Learn how to match equipment capabilities and packaging formats to operational goals.	 A DURAVANT COMPANY	
12:30 pm		Automating product flow on food packaging lines from processing to packaging.	 A DURAVANT COMPANY	
1:00 pm		Optimum processing for deli meat: Learn about the technical and operational steps required to transform raw muscle into a high-quality finished product.	 A DURAVANT COMPANY	
1:30 pm		Evaluating sortation technologies for your operation? Key factors to consider Duravant Material Handling Integrated Solutions.		
2:00 pm		Bag Inserting, But Smarter: Reduce labor, protect product, and improve efficiency in bag-in-box packaging operations.	 A DURAVANT COMPANY	
2:30 pm		Optimizing food packaging lines: Strategic conveyor selection and integration.	 A DURAVANT COMPANY	 A DURAVANT COMPANY
3:00 pm		Scaling flexible packaging operations: The path from pre-made to roll-stock.	 A DURAVANT COMPANY	
3:30 pm		Identifying and selecting the best strapping technologies for standard and unique end-of-line load containment needs.	 A DURAVANT COMPANY	
4:00 pm		Spare parts strategy: Minimizing downtime and safeguard production through smart planning.	 A DURAVANT COMPANY
