

WULFTEC® STRAPPING MACHINERY

Strap Dispensers

WULFTEC

A DURAVANT COMPANY

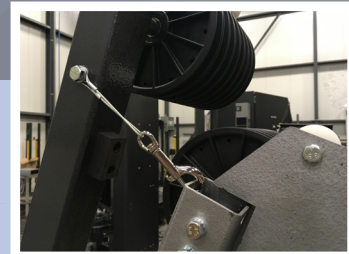

Wulftec offers 4 different dispensers

Each can fit different coil sizes:

Standard Coils, Jumbo Coils, Super Jumbo Coils or Ultra Jumbo Coils.

Any dispenser is available with either left or right-hand loading.

2 sets of pulley wheels handle an accumulation of 40ft of strap

Bring the strap dispenser arm in upright position to ease the accumulator threading.

Strap Dispenser with electric brake

- This is our standard strap dispenser
- 2 sets of pulleys to handle the accumulation of strap
- Electric brake to stop the coil from unwinding
- Can be positioned straight or at 90°
- Can accept coils of 16" ID X 6" wide X 25" OD
- A proximity sensor detects the lowered swing arm position, signaling the electric brake to stop the spool from spinning once the accumulator is full
- The electric brake is controlled by the strapper via a relay
- Overall dimensions: 16½" L x 40" W x 57" H

Jumbo Strap Dispenser with electric brake

- Replace the standard strap dispenser for a motorized Jumbo coil strap dispenser that can accept coils of 16" ID X 7,5" wide X 25" OD
- A 460V Nord brake motor to control the spool rotation speed and stops it once the accumulator is full
- The motor is controlled by the strapper via an Allen Bradley PowerFlex VFD
- Overall dimensions: 22" L x 42½" W x 61¾" H

Super Jumbo Coil Strap Dispenser with electric brake

- Replace the standard strap dispenser for a motorized Super Jumbo coil strap dispenser with hoist that can accept coil of 16" ID X 12" wide X 32" OD
- Includes manual crane with hook to reload strap coil
- A 460V Nord brake motor to control the spool rotation speed and stops it once the accumulator is full
- The motor is controlled by the strapper via Allen Bradley PowerFlex VFD
- Overall dimensions: 96" L x 71¼" W x 120¼" H

Ultra-Jumbo Strap Dispenser

- Significantly reduces the number of changeovers required to replenish strap, a full pallet of Ultra-Jumbo coils can be loaded on to the turntable eliminating the manual manipulation of smaller strap coils
- Includes a 5,000 lbs. capacity turntable to accept a full pallet of Jumbo PET strap coils, strap accumulation take-up pulleys, and controls to interface with the customers strapping machine
- The dispenser is controlled by an Allen Bradley Micro800 PLC and PowerFlex VFD: the interface with the strapping machine is achieved via dry contact communications
- Overall dimensions: 122" L x 82" W x 61¾" H

Our Strength: Integration

- Our strapping machines have extremely robust construction and include fully automatic, vertical and horizontal strapping and with or without compression
- We offer self-controlled machines with a control panel, Allen Bradley PLC, contactor or variable AC frequency drives
- Easy integration with existing production lines

Options Available

- GT 41HT High Tension head
- Floating head feature
- Increased strap arch size
- Wide variety of conveyors
- Pallet bayonet (void feeder)
- Combination of undertrack and pallet bayonet (void feeder)
- Additional strap arch
- Bunk Feeder
- Integrated lift rotating cross
- Pallet stopper
- Temperature packages
- Top corner protection dispenser
- Bottom corner protection dispenser
